

Intervacc has presented results from clinical trials at WEAS 2017

The WEAS (World Equine Airway Symposium) is a

regularly recurring international scientific meeting on diseases of the horse's airways.

At [WEAS 2017](#) in Copenhagen in July 2017, Intervacc CEO Jan-Ingmar Flock presented data from the clinical trials conducted with [Strangvac®](#). This has given further spread and knowledge about Strangvac® to a very important target group, horse veterinarians specialized in strangles
